

# PIONEER

*Leads the world in  
Parachute Manufacturing*

Pioneer Parachute Company working in close cooperation with Cheney Brothers, world famous weavers, form a unique team making possible the research, engineering, testing, weaving and manufacturing from the raw product to the finished parachute virtually under one roof. It is this co-ordination of personnel, "Know how", and manufacturing facilities, backed by vast resources and high standards of workmanship, that unquestionably places Pioneer parachutes in the vanguard of aviation progress. Pioneer parachutes are depended on by leading test pilots and aviation manufacturers and accepted as standard equipment by many government air forces the world over.
