

Oxford.

June 8.—There are more potato bugs this season than ever known in previous years.

A lecture is to be delivered by Mr. Potine in the Episcopal church on Sunday evening, June 19: subject, "Mortality." Next Sunday Rev. George P. Torrance, who once officiated here, is to conduct services, to begin at 11 and 1:30 o'clock.

The ladies of St. Peter's society are to hold an ice cream and strawberry festival next Tuesday evening, the 14th, in the Town hall. An enjoyable time may be expected.

A gang of men are now at work putting up the cross arms on the poles of the Mutual Union Telegraph company, preparatory to putting up six more wires, which are soon to be placed in position.

H. C. Chatfield has moved to the house in Oxford center, recently vacated by Mrs. E. W. Stewart.

On and after Wednesday, the 8th, the Woodbury stage leaves at 6:45, morning, instead of at 8, as heretofore, returning as usual.

Dr. John Loundsbury has begun carrying the water from the Oxford Mineral spring to New Haven, and his orders are constantly increasing.

The Oxford Center school closed for the summer on Friday, May 27.
